DETAILED ACTION

Allowable Subject Matter

1. Claims 7-11 are allowed.

The following is an Examiner's statement of reasons for allowance: the prior art, alone or in combination, does not teach or fairly suggest the subject matter of the Applicants' claimed invention as described below.

As to claims 7-9, the most applicable art of record, the LaJoie (USPN 5,850,218) reference fails to teach or imply displaying program details for multiple programs corresponding to the channel identifier and time slots of the program appearing in the selection region. U.S. Patent No. 6,246,442 to Harada et al. discloses an apparatus for displaying information arranged in cells. As illustrated in Figure 9, program details for programs meeting certain attributes (such as channel identifier and time slot) are displayed along a display axis. Even though the overall arrangement resembles that disclosed in the instant application, program details are not displayed in accordance with what is appearing in a selection region. Harada's system simply provides a method for determining the appearance of a guide, which is not affected by what is appearing in a selection region of the guide. Harada's system fails to teach or suggest updating a program details area according to a program appearing in a selection region, or a selection region altogether. Therefore, the references fail to teach or disclose that which is noted above.

As to claims 10-11, the LaJoie reference does not disclose displaying the program titles in bounded display areas resembling a three-dimensional stack of file tabs whose contents are displayed when the viewer manipulates the stack. U.S. Patent No. 6,522,342 to Gagnon discloses

Art Unit: 2614

an EPG where file tabs are present, as illustrated in Figure 12. However, Gagnon's file tabs are used to aid the user in selecting different categories of actions (e.g., Messages, Schedules, Settings). The program titles are still displayed in a standard two-dimensional grid format, and there is no teaching or implication to display them as file tabs. Therefore, the references fail to teach or disclose that which is noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
